

Air Around Us

Students made parachute using different sized polythene bags, thread rubber etc. and dropped them from a height. Repeated the same with differently sized parachute and observed that bigger polythene fell slower compared to the smaller ones. This experiment teaches us that increased area of the poly bag leads to higher resistance offered by the surrounding air and air resists motion.

Assembly

Assembly is the way from which students come to know our National Anthem and School Prayer. It helps the students to follow the orders and to maintain discipline. That's why daily assembly is very necessary.

Mass P.T. for Physical Development

Mass P. T. is a part of the physical exercises. It is very important for the students to know which exercises are important for our body. Mass P. T. helps to maintain discipline and develop a team spirit. It is compulsory for every student, as it helps to know how to work in a team.

Best out of Waste

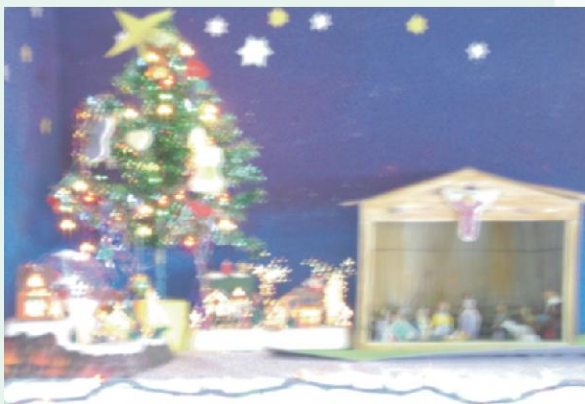

In this activity students learned the use of 3 R's for which they had made colorful and beautiful articles.

Christmas

Students celebrated Christmas at Indo Public School. Christmas play was presented by the students of the high school depicting the birth of Jesus Christ. Class V made posters of Santa Clause decorating it with cotton and wool. The posters were displayed on the soft boards. It showed their love for Santa. All the students had a gala time with the Santa. They danced, played and sang carol. Santa distributed sweets and blessings to all. Each one had silent prayers for the better and a peaceful life ahead. Merry Christmas greetings were exchanged. All had a fun-time.

Art Out Of Waste : Jewel Box

Learning to create art out of the waste was the theme of this activity. Students were taught to make jewel boxes out of waste paper bowls. The students enjoyed this activity creating marvellous piece of art.

Art Wall Class V

Students of class V decorated the soft-board with the small little art made of paper. Bringing out creativity and imagination is the motto behind this activity. Learning eye-hand coordination and bringing imagination to reality was reflected.

Celebrating Diwali With Colours Not Crackers

A pollution free Diwali was the theme of this Diwali. Students decorated the old plastic bottle and made lanterns out of it, Old plastics plates were coloured to make the puja thalis. Students promised to spread the message of pollution free Diwali without crackers.

Little Artists at Work

Celebrating Janmashtami

INDEPENDENCE DAY CELEBRATION

Patriotic fervor among the staff and students of Indo Public School was clearly visible on the Independence Day celebrated in the school on 15th August, 2011.

Principal, Mrs. Veena Ramball unfurled the National Flag followed by unanimous rendition of the National Anthem. An Inter-House Patriotic Song Competition among the four houses was held. All the houses participated with great enthusiasm. Patriotic songs were sung along with the presentation of small dramas depicting the struggle for independence. Dandi March was the attraction of the day. Students played the role of Gandhiji, Bhagat Singh, Subhash Chandra Bose, and as martyrs of the freedom struggle. They gave fiery speeches making each one realize the importance of freedom for which they had given away their lives. The day brought in mixed feelings of pride and incompleteness for the little ones did make every one realize that there is much more to do and give to our Motherland. Vande Mataram!

VISIT TO AN ORPHANAGE

Students visited the Holy Cross Orphanage Home run by the Christian Missionaries. Students donated clothes, woollen garments, cereals, and other eatables to the orphanage. They interacted with the children and the old people. They gave them greeting cards and sweets as a mark of love to them. The students were very sad to see the state of the little one without their parents and realized that they themselves are the fortunate ones. Charity begins at home is what they all experienced. They left the orphanage with tears in their eyes but bestowing love, care and prayers for all the little ones they met.

Science Exhibition

Students explaining about the models and experiments to parents and visitors.
