

INDO PUBLIC SCHOOL SESSION – 2025- 26

World Population Day

World Population Day, observed on July 11th, is an international event established by the United Nations Development Program in 1989. It aims to raise global awareness about various population issues and their impact on development.

On the occasion of World Population Day, Indo Public School came together to reflect on a truly vital issue: the accelerating growth of world's population and its impact on our shared future. Through engaging discussions, speech and role play students learned about the challenges and opportunities associated with demographic trends, emphasizing the importance of sustainable resource management, access to education and health care, and the role each one of us plays in shaping a balanced and hopeful world for generations to come.
